INDEX.

Abyssinian Travels, 133
Acids, Fatty and Aromatic, and their Relations to Carbonic Acid, 160
Actiniæ, Electrical Powers of, 328
Aldehydes, their Conversion into Alcohols, 163
Allman, Professor, on the Structure of the Reproductive Organs in certain Hydroid Polypes, 294
American Scientific Association, Proceedings of, 140
Amphora, Structure of, 306
Animal Life in Cambrian Rocks, 328
Antennularia antennina, 299
Antiaris Toxicaria, 342
Artesian Spring, 310
Artesian Wells, 169
Astronomical Intelligence, 344
Bailey, J. D., on the Origin of Greensand,
Barometer, Great Height of, 173
Barth on the Niger, 129
Baxter, H. F., on Polar Forces, Muscular and Nerve Force, 211
Baxter, H. F., on the Origin of Muscular and of the Nerve Current in the Living or Recently Killed Animal, 63
Biographies, 344
Bituminous Coals, the Decomposition by Heat, 33
Bloxam, T., on the Composition of the Building Sandstones of Craigleith, Binnie, Gifnock, and Partick Bridge, 83
Boghead Coal, 119
Bonn, Scientific Meeting at, 149
Botanical Bibliography, 325
Botanical Intelligence, 159, 319
British Association, Proceedings of, 123
Bromine Water, Density of, 287
Brown, Alexander, Meteorological Register, 343
Bryson, A., Notice of Dr Fleming, 183
Buist, Dr, on Lotus of India, 323
Campanularia caliculata, 301
Campanularia Johnstoni, 286
Campbell, W. H., and Holmes, W. R., visit to Cuyuni Gold-Fields, 334
Carboniferous Deposits, Base of the, 222
Cauchy, Baron, Obituary of, 178
Caves near Penzance, 146
Cervus Euryceros, or Great Irish Elk, 327
Cetonia aurata and Hydrophobia, 175
Chemical Intelligence, 160
Chili, Subterranean Temperature in, 147
Clava multicornis, 296
Coal in the Rocky Mountains, 177
Cochrane, J. J., Observations on the Temperature of the Pentland Frith, 79
Colouring Matter of Persian Berries, 252
Coprinas, Notice of Peculiar Specimen of, 314
Cornwall, Royal Institution, Proceedings of, 146
Coryne gravata (Wright), 282
Coryne ramosa, 296

XUM

Cranial Type in America Aborigines, 1
Craters of Java, Vegetation of, 322
Cryphæa Lauryana noticed, 317
Crystals, Microscopical Structure of, 331
Davy, Dr John, on the Black Lustrous Varnish of Ancient Pottery, 303
Dawson, J. W., on Sternbergiæ, 140
Dust-Shower at Baghdad, 178
Edwards, R., on Remarkable Ancient British Caves near Penzance, 146
Egyptian Plants, Notice of, 315
Ephelota coronata (Wright), 279
Fleming, John, Obituary of, 183
Fossil Mammalian Footmarks, 175
Gaels of Ireland and Scotland, 123
Galathea Andrewsii, 312
Garrulus minor from Algeria, 175
Gellatly, John, on the Colouring Matter of Persian Berries, 252
Geography, Ancient Physical, of South-East of England, 226
Geological Intelligence, 164, 133
Gold-Fields of Caratal, &c., in Cuyuni, 334
Goodsir, Professor, on the Mechanism of the Knee-joint, 304
Goppert on Boghead Coal, 119
Greensand, Origin of, 166
Gutta Percha of Surinam, 319
Hall, Dr Marshall, Biography of, 347
Harkness, Professor, on the Records of a Triassic Shore, 75
Harris, Tides in the Sound of, 272, 274
Hayes, A. A., on some Modified Results attending the Decomposition of Bituminous Coals by Heat, 33
Heat produced by Agitation of Water, 137
Hematite, on the Discovery of, in Ayrshire, 309
Henwood, W. J., Note on Subterranean Temperature observed in Chili, 147
Himalayan Travels by Schlagintweit, 126
Hudson's Bay Company's Territories, Natural History of, 189
Human Race, Antiquity of, 328
Hydractinia echinata, 295
Hydroid Polypes, Reproductive Organs of, 294
Jacob, W. S., on the Relative Path of the Components of 61 Cygni, 107
Kelaart, Dr E. F., on the Natural History of the Pearl Oyster, 310
Kelland, Professor, the Life and Writings of Cauchy, 178
Kelland, Professor, Obituary of Thénard, 349
Kirk, Dr John, on Egyptian Plants, 315
Kirk, Dr John, on a new Species of Muscari from Mount Ida, 316
Knee-joint, Mechanism of, 304
Kolbe, Prof., on the Constitution of the Fatty Acids, Aromatic Acids, &c., and their Relations to Carbonic Acid, 160
Kölliker on Antiar Poison, 342
Lagotia viridis (Wright), 277
Laomedea accuminata, 108
Laomedea flexuosa, 298
Latex in Spiral and other Vessels, 320
Lawson, Dr George, on the Microscopical Analysis of Tobacco, 315
Limpricht, Prof., on the Conversion of Aldehydes into Alcohols, 163
Linear Vibration, Theory of, 237
Lotus, or Sacred Bean of India, 323
M'Bain, Dr James, on the Skull of a Seal from the Gulf of California, 312
M'Bain, Dr James, on the Skull of a Wombat from the Bone Caves of Australia, 308
M'Nab, James, List of Plants Flowering in Botanic Garden on 14th January 1858, 317
Maclaren, Charles, on Conducting Power of Rocks, and on Altitude of Mountains, 170

Maclaren, Charles, on Fikermi Fossils, 164, 331
Magnetism, 342
Medusoid of *Campanularia Johnstoni*, 286
Meteorological Register at Arbroath for 1857, 343
Meteorology, 172
Meteoric Stones, 176
Montreal, Pliocene Deposits of, 333
Moreno, G. Garcia, Descent into Volcano of Pichincha, 290
Mountains, Altitude of, not Invariable, 170
Murray, Andrew, on Rein-Deer, 189
Muscari, new Species of, from Mount Ida, 316
Muscular and Nerve Force, 211
Muscular and Nervous Tissue, Polarized Condition of, 63
Niger, the Rising of, 129
Norway, Climate and Cultivated Plants of, 159
Obituaries, 178, 183, 185
Oldhamia, 328
Olive-crop in Corfu noticed, 318
Otter, Henry C., on the Tides in the Sound of Harris, 272
Ozone Observations, 35
Palæopyge Ramsayi, 328
Pearl Oyster, Natural History of, 310
Peltogaster Carcini, Notice of, 311
Pentland Frith, Temperature of, 79
Persian Berries, Colouring Matter of, 252
Peruvian Climates, Diseases of, 43
Pichincha, Descent into Volcano of, 290
Pichincha, Plants in Crater of, 202
Pikermi Fossils, 164
Planetoids, 175
Planets, New, 344
Playfair, William Henry, Biography of, 344
Pliocene Deposits of Montreal, 333
Plumularia cristata, 302
Plumularia pinnata, 301
Polygonatum verticillatum, Notice of, 314
Protozoa, Description of New, 276
Rain, Fall of, in Scotland in 1857, 259
Rain-Gauge, best Form of, 259
Redfield, W. C., Obituary of, 185
Rein-Deer, 189
Reviews and Notices of Books, 117
Rhamnus tinctoria, 252
Robertson, Dr William, Excursions in the Troad, 293
Rocks, Conducting Power of, 170
Rocky Mountains, Coal in the, 177
Rogers, W. B., Notice of W. C. Redfield, 185
Rogers, W. B., on Ozone, 35
Rose, Alexander, on the Discovery of Hematite Iron Ore on the Garpel, Ayrshire, 309
Royal Society, Proceedings of, 293
Russell, J. Scott, on Great Eastern Steamship, 135
Russell, R., on the Rotatory Theories of Storms, 91
Saint-Hilaire, Geoffroy, 176
Sandstone, Lower Old Red, 222
Sandstones, Composition of, 83
Sang, Edward, Theory of Linear Vibration—(*continued*), 237
Sapota Mulleri, 319
Schlagintweit on Himalaya, 126
Seal, peculiar Skull of, 312
Slessor, J., on the Density of Bromine Water of various strengths, 287

XUM

Smith, Archibald, on the Geography of Diseases in the Climates of Peru, 43
Sorby, H. C., on the Ancient Physical Geography of the South-East of England, 226
Sorby, H. C., on some Peculiarities in Microscopical Structure of Crystals, 331
Scoresby, Rev. William, Biography of, 346
Stark, James, on the Fall of Rain in Scotland, during 1857, 259
Stark on the Tides in the Sound of Harris, 274
Stars, 61 Cygni, Relative Path of, Components of, 107
Stauridia producta (Wright), 283
Sternbergiæ, Remarks on, 140
Stevenson, T., on Temperature of Pentland Frith, 79
Storms, Rotatory Theories of, 91
Symonds, W. S., on the Base of the Carboniferous Deposits, and the Lower Old Red Sandstone, 222
Tertiary Climate, 334
Thénard, Obituary of, 349
Tobacco, Microscopical Analysis of, 315
Trecul on Latex, 320
Triassic Shore, Records of, 75
Trichydra pudica, 111
Troad, Excursions in the, 293
Tubularia coronata, 297
Tubularia indivisa, 113
Upas Antiar Poison, 342
Urticaceæ, Hairs of, 324
Urticaceæ, Properties of, 160
Urtical Alliance, 320
Vagincola crystallina, 279
Vagincola valvata (Wright), 279
Varnish of Ancient Pottery, 303
Vesuvius, Eruption of, 333
Volcanic Eruptions, 176
Walker-Arnott, Professor, on the Structure of Amphora, a genus of Diatomaceæ, 306
Wilson, Daniel, on the Supposed Prevalence of one Cranial Type throughout the American Aborigines, 1
Wilson, G., on Building Sandstones, 83
Wombat, on the Skull of, 308
Wright, T. S., Description of New Protozoa, 276
Wright, T. S., Observations on British Zoophytes, 108, 282
Zollinger, on Vegetation of Java Craters, 322
Zoological Intelligence, 327
Zoophytes, British, 108, 282.

END OF VOLUME SEVENTH—NEW SERIES.

PRINTED BY NEILL AND COMPANY, EDINBURGH.
